Specification sheet - Rice

Parboiled Rice

Golden parboiled rice - high head-rice yield and strong shelf stability for long hauls.

Parboiled rice is soaked, steamed and dried in the husk before milling. The process drives nutrients into the endosperm, hardens the grain and produces the characteristic golden tint.

It travels and stores well, which makes it the practical choice for African and Middle-Eastern programmes and for buyers holding stock over a season.

Product highlights

- High head-rice yield, low breakage
- Robust in long transit and warm storage
- Single and double parboiled available
- 25 kg and 50 kg bulk bags

Technical specification

Variety	Parboiled (sella) rice
Grade	Single or double parboiled, sortex clean
